The ORIGINAL WaterSmith PRO Fountains are the economical choice for a decorative, yet powerful pond display. Adding a fountain to aerate your pond is one of the most beneficial things you can do for the overall health and beauty of your pond. A fountain or aerator will circulate the water in your pond, add oxygen to the water, control algae, and add a stunning and dynamic water feature. We offer high-flow models for aeration and a draw tube kit option for deep water circulation. Our innovative and low-cost designs will help you maintain a beautiful pond without breaking your budget.

Features of WaterSmith PRO fountain pumps:

- High-Head/High-Volume Direct Drive Pump
- Stainless Steel & Cast Iron Construction
- Precision Motor with Auto-cut Thermal Protection
- Double Mechanical Seals & Dual Drive Bearings
- Standard 100' Power Cord (Custom lengths available)
 - 2 Year Warranty
 - Repairable for Longer Life

DRAW TUBE KIT \$99 (1/2HP & 1HP) / \$160 (2HP)

A WaterSmith draw tube kit provides the adapters necessary to add a 4" PVC pipe to extend the intake depth in the pond. PVC pipe can be easily purchased and custom cut and any local hardware store. The length of the pipe should be cut so that it is 2' from the bottom of the pond. The draw tube allows the fountain to circulate the bottom water and aerate the entire lake which combats silt build-up, nutrient accumulation, algae blooms and fish kills.

WaterSmith PRO Fountain Warranty: 3 year warranty on all parts except the pump which has a 2 year manufacturer's warranty.

WaterSmith Light Kit Warranty: 1 year warranty on all parts excluding lamps (bulbs). Please call Freshwater Farms of Ohio, Inc. (937-652-3701) for warranty procedure or repair.
